The California Water Boards Proudly Present

THE WATER QUALITY SERVICE LEARNING PROGRAM AND WATER QUALITY DETECTIVES AFTER SCHOOL PROGRAM

- ◆ Student-centered science investigations
- ◆ Raises students' awareness of polluted runoff and how it impacts them, local waterways and the environment
- ◆ Students will learn how to reduce water pollutants through community-oriented projects
- ◆ Teachers/leaders will guide students through a campus or site audit to learn how water flows through school or site grounds collecting pollutants as it leads to other waterways
- ◆ The Water Quality Service Learning Program's unit of study is designed to teach specific standards for all 4th, 5th and 6th grades
- ◆ The Water Quality Detectives After School Program is designed for students of all ages
