How to Prepare Stormwater Control Plans for Development Projects

A free workshop for land development professionals, including civil engineers, architects, landscape architects, geotechnical engineers, developers, contractors, and municipal staff reviewers

Thursday, May 17, 2012 • 8:30 am to 12:30 pm

Shadelands Arts Center, 111 N. Wiget Lane, Walnut Creek

The Regional Water Quality Control Board amended the Municipal Regional Stormwater NPDES permit in November 2011. This workshop will cover how to comply with the updated Provision C.3, and will include:

- A “walk-through” of the updated template for preparing Stormwater Control Plans
- New procedures and calculations for evaluating the feasibility of runoff harvesting and reuse.
- New specifications for bioretention soils
- Requirements for green roofs
- New information on bioretention effectiveness
- “Special Projects” exceptions to LID requirements
- Case study of harvesting/reuse design, permitting, operation, and maintenance

Presenter:

Dan Cloak, P.E., Dan Cloak Environmental Consulting

Continental breakfast will be provided.

Registration info coming soon.
